Administration of cortisone to rabbits induces an
increase in the weight of the liver and a decrease in the
weight of the thymus gland, the lymphatic glands below

dry weight of the thymus gland is increased in animals

1. Kuzhman, M. I.

DESCRIPTORS: *Alkaloids, Drugs, Pharmacology,
*Respiration, *Brain, Inhibition, Tissues (Biology),
Cells (Biology), Oxidation, *Amino Acids, Enzymes.

Addition of cocaine to the cerebral pulp of rats caused a
decrease in oxygen consumption at the expense of oxida-
tion of endogenic substrata as well as upon addition of
glucose, lactic and pyruvic acids. Addition of succi-
nic acid decreases oxygen consumption to a lesser
degree. Glycolysis is not impaired. The dehydrase
activity in the brain is considerably reduced by cocaine.
